Since mailing the MAG Transportation Safety Committee agenda, the following item has been requested to be added. Please contact the MAG office if you have any questions regarding this addendum to the agenda.

8. Inconsistent Signage at Roundabouts

At a recent ADOT sponsored training session on Roundabouts, it was pointed out that there was little consistency in the signage used at existing roundabouts in the MAG region, especially the advanced warning sign and the supplemental plaques underneath the yield signs. This prevailing inconsistency will be discussed and the possibility of evaluating a few signs currently being used by MAG member agencies will be discussed.

**COMMITTEE ACTION REQUESTED**

8. For information, discussion and possible action to form a subcommittee to examine this issue and report to the committee at the April 22, 2008 meeting.
